Labelling your parcel:

- Find your destination on the map and identify the coloured zone
- Refer to the parcel ruler above and apply relevant labels based on your parcel weight
- Refer to the respective coloured zone tables for label rates

Transit times:

Local delivery - Same day	Within Island - 1 day
Inner shorthaul delivery - 1 day	Inter Island - 2 days
Outer shorthaul delivery - 1 day	Rural - Additional 2 days

Maps not to scale.

* Minimum purchase requirements apply. Base rate only. Does not include any additional fuel surcharges if applicable. Visit fastway.co.nz for details.

Estimated transit times in working days.

* Local satchels available for delivery in the Pink Zone only

¹ Rural destinations determined by Fastway Couriers. This is additional to the standard base label.

Prices exclude GST. Effective as at 1 July 2017

Weigh, label & send your parcel

Your parcel delivery is calculated on the cubic weight (size) or the actual weight – whichever is greater.

a. Convert measurements to metres

Example: if a parcel is:	
Height: 80cm	> 0.8m
Width: 50cm	> 0.5m
Length: 33cm	> 0.33m

b. Multiply the height x width x length x cubic conversion (200) = cubic weight

Example: 0.7 x 0.4 x 0.33 x 200 = 18.48kg

c. So if the actual weight is 5kg and the cubic weight is 18.48kg – the greater weight of 18.48kg is used to select the label/s.
