**Maps not to scale.**  
\* Minimum purchase requirements apply. Base rate only. Does not include any additional fuel surcharges if applicable. Visit [fastway.co.nz](http://fastway.co.nz) for details.  
\* Estimated transit times in working days.  
<sup>1</sup> Local satchels available for delivery in the Pink Zone only  
<sup>1</sup> Rural destinations determined by Fastway Couriers. This is additional to the standard base label.  
Prices exclude GST. Effective as at 1 July 2017

## Weigh, label & send your parcel

Your parcel delivery is calculated on the cubic weight (size) or the actual weight – whichever is greater.

a. Convert measurements to metres

**Example: if a parcel is:**

Height: 80cm > 0.8m
Width: 50cm > 0.5m
Length: 33cm > 0.33m

b. Multiply the height x width x length x cubic conversion (200) = cubic weight

Example: 0.7 x 0.4 x 0.33 x 200 = 18.48kg

c. So if the actual weight is 5kg and the cubic weight is 18.48kg – the greater weight of 18.48kg is used to select the label/s.
