# Estimated transit times in working days.

\* Local satchels available for delivery in the Pink Zone only

¹ Rural destinations determined by Fastway Couriers. This is additional to the standard base label.

Prices exclude GST. Effective as at 1 July 2018

Weigh, label & send your parcel

Your parcel delivery is calculated on the cubic weight (size) or the actual weight – whichever is greater.

**a. Convert measurements to metres**

**Example: if a parcel is:**

Height:	80cm	>	0.8m
Width:	50cm	>	0.5m
Length:	33cm	>	0.33m

**b. Multiply the height x width x length x cubic conversion (200) = cubic weight**

**Example:** 0.7 x 0.4 x 0.33 x 200 = 18.48kg

**c. So if the actual weight is 5kg and the cubic weight is 18.48kg – the greater weight of 18.48kg is used to select the label/s.**
